# casing end seal Model R End Seal

between carrier and casing pipes.

### Features:

- · Low storage costs only five end seal sizes to accommodate casings from 4" to 24" in diameter with all applicable carrier pipe sizes.
- May be used for new installations.
- Manufactured from 1/8" (3.18mm) thick high quality EPDM rubber.
- Sizes are clearly printed on sleeves to simplify cutting to the correct size.
- Stainless steel bands for clamping both ends of the end seal are provided.
- · Casing night cap prevents entry of debris and animals during install.

Night cap application.

### **Five Models From Which To Choose**

Select the appropriate end seal for your casing pipe O.D. (colored bars below) then verify that your carrier pipe O.D. is within the cone's diameter range.

Model R4 For 14 - 16 inch (350-402mm)

**Casing Pipe Diameters** 

Model R500

For 20 - 24 inch (508-610mm)

## Tips for Installation

Simply cut the seals at the closed end to the measured external diameter of the carrier pipe. (Note: The printed sizes are marked on the end seals.) Push the end seal over the outside of the casing pipe and the carrier pipe and fasten with the included stainless steel bands.
